

GIVE RATIONALE

Give yourself and others time- Take time to do things slowly- things are likely to take longer

The give section is also about ways that we help others. Helping others is not only good for children and young people and a good thing to do, it also makes us happier and healthier too. Giving connects us to others, creating stronger communities and helping to build a happier society for everyone

TIPS

- Giving - Use Circle Time/group time: to promote a collective understanding of how to support each other and encourage small acts of kindness;
- doing simple, kind things for others, possibly asking children what actions would make each other smile.
- Giving time – this is really important for young children, they may take longer to undertake daily tasks and to get used to routines
- Giving resources- children may find sharing very difficult both because they are out of practice and because they are anxious about physical contact with objects
- Give reassurance to children and remind them that we can explore and play but, that we need keep washing our hands after we have done so
- Oxfordshire provide a positive resource to support EY children with initial transitions during this period

FURTHER WORK

Monitor children who are requiring long periods to engage in activities or who find separation at the start and end of the day particularly hard.
