

## IMAGINE RATIONALE

---

Imagine the future where the obstacles we now face are overcome. What would we want to be able to do again but, also what would we want to differently?

## TIPS

---

Talk to the children about the future and what this is. For younger children this will be about a more immediate future and plans for tomorrow or next week. Encourage children to contribute ideas for session etc. this future thinking helps to generate hope even in younger children and a sense of things moving forwards

Use a tomorrow board to generate ideas about fun activities or things the children would like to do. Put post it notes with pictures onto the board

Discuss future events such as 'the weekend' or 'next week'. Remind children of calendar events such as half term and Christmas to help to give them a sense of time and familiarity

## FURTHER WORK

---

Use video to capture unusual thoughts feelings and ideas from his period. Use music, pictures and stories to inspire children to think about different times and places
